GMT-5 (overlaps US ET/CT 9am–5pm) · Native Spanish · Professional English

Senior Mobile & Full-Stack Engineer with 5+ years specializing in Flutter, backed by strong experience in backend (NestJS, Spring Boot) and AWS cloud (Lambda, ECS, EKS, Aurora, DynamoDB).

I've shipped production mobile apps for clients across the US, Ecuador, and Latin America — from rideshare (REVO, live on App Store and Google Play) to sports social networks (SportYeah), delivery apps (Beez), enterprise workforce management (SICMER for Corporación Favorita), and wellness (Spectrum Aesthetics).

100% remote, distributed teams. Native Spanish · Professional English.

## KEY SKILLS

- Flutter (Dart) · React Native · Clean Architecture · Provider; Bloc/GetX/Riverpod
- Auth: OAuth2.0, Keycloak · Firebase (Auth/FCM/Crashlytics)
- DevOps: Docker; CI/CD (GitHub Actions/GitLab/Jenkins)
- Frontend: Angular, Vue.js, Laravel
- APIs: NestJS/Node.js; Spring Boot/Kotlin
- Databases: MySQL; PostgreSQL/MongoDB
- Cloud: Firebase/GCP; AWS (S3/EC2, DynamoDB, ECS, EKS, Lambda, Aurora)

## EXPERIENCE

### Kruger Corp / Corporación Favorita — *Software Engineer*

May 2022 – Oct 2025

- Implemented OIDC authentication with Keycloak in Flutter apps, reducing login failures and centralizing roles/permissions.
- Built business modules in Flutter (Dart) consuming NestJS REST APIs; Clean Architecture with unit and widget tests.
- Integrated Firebase Cloud Messaging for segmented push notifications and Crashlytics with crash-free rate > 99% on target releases.
- Optimized performance: reduced TTI and .aab size through lazy loading and asset optimization.
- Containerized services with Docker, configured CI/CD pipelines (GitHub Actions/GitLab) for signed builds and QA/UAT deployments.

- **SICMER (Corporación Favorita):** Flutter app for authorized delivery personnel management, scaled to **16K+ users**. NestJS REST APIs and Firebase for messaging and crash reporting.
- Current project at Corporación Favorita: Angular frontend + Spring Boot backend; Jenkins, SonarQube, and Kubernetes.
- Collaborated with product/design and QA; code reviews and mentoring new team members.

*Flutter, NestJS, Keycloak (OIDC), Firebase, Docker, Angular, Spring Boot, Jenkins, Kubernetes, SonarQube*

## Freelance — Mobile Developer (Flutter)

2023 – 2025

- **REVO Rideshare** (*client: PNP Capital Ventures LLC, US*) — Two Flutter apps (rider + driver) for a US-market rideshare platform.
  - Real-time GPS tracking + Google Maps integration with route preview, fare estimation, and live trip state.
  - Transparent pricing engine and in-trip safety features (SOS, trip sharing).
  - Published to **App Store + Google Play** (both rider and driver builds live).
  - Authentication, push notifications, and analytics via Firebase; REST APIs for backend.
- **SportYeah** — Flutter sports social network app: news feed, live scores, forums, chat, stories, creator monetization. End-to-end mobile delivery on Flutter + Firebase.

*Flutter, Firebase, Google Maps, REST APIs*

## Current Projects — Freelance

Active

### Mobile Support

- **Spectrum Aesthetics** (Spectrum Image, Inc.): Flutter mobile app support and maintenance with Firebase. Available on App Store and Google Play.
- **360io** (360 Integrations): React Native mobile app support and maintenance with Firebase. Available on App Store.

### Web Development

- **Taurus** (Lupio Dev): Corporate gym portal — billing, contract cuts, employee management and reports. Laravel 12 + React + TypeScript on SQL Server (coexists with legacy ASP.NET system).
- **Mydessk** (Lupio Dev): Electronic invoicing and sales management web platform. Laravel + Vue.js.
- **Reventi** (Lupio Dev) — *Completed May 2026*: Online marketplace for buying & selling locally. Laravel + Vue.js.

*Flutter, React Native, Firebase, Laravel, Vue.js, React, TypeScript, SQL Server*

## Lupio Development — Flutter Developer

2021 – 2022

- Maintained and improved Flutter projects, applying architecture best practices and code optimization.
- Migrated APIs to new versions, optimizing integration and reducing development time.

*Flutter (Dart)*

## Beez Delivery — Mobile Developer (Flutter)

Dec 2021 – Apr 2022

- Maintained and evolved four Flutter apps (client, driver, admin, and tracking) consuming Laravel 8 APIs.
- Improved load times with HTTP caching, pagination, and view memoization.
- Instrumented analytics and error handling with Firebase; managed beta releases on Play Console.

*Flutter, Laravel 8, REST, Firebase, Play Console, MySQL*

## CLOUD INFRASTRUCTURE HIGHLIGHTS

---

*Cross-cutting AWS work delivered within the Beez Delivery, Kruger Corp, and Corporación Favorita engagements (2021–present).*

- Serverless APIs on **API Gateway + AWS Lambda** with IAM least-privilege, Secrets Manager / SSM.
- Containerized services on **Amazon ECS (Fargate)** with ALB, health checks, blue/green deploys.
- Microservices on **Amazon EKS (Kubernetes)** with Helm, Ingress/ALB, and HPA autoscaling.
- Data: **Aurora Serverless v2, DynamoDB, ElastiCache (Redis), DocumentDB, OpenSearch.**
- Networking: VPCs with public/private subnets, NAT Gateways, least-privilege IAM.
- Automated **CI/CD** to ECS / EKS / Beanstalk with Docker artifacts and signed releases.

*AWS Lambda, ECS, EKS, EC2, Aurora, DynamoDB, ElastiCache, Route 53, ACM, ALB, ECR, Secrets Manager*

## CERTIFICATES

---

**Work Certificate — Kruger Corporation S.A.S**

Technical Consultant · May 2022 – Oct 2025 · Issued Nov 24, 2025

 PDF

## EDUCATION

---

- Software Engineering — self-directed and on-the-job since 2021. *(Open to discuss formal background on request.)*
